

National Police Checking Service (NPCS)

List of Accredited 'Broker' Organisations

Current as at June 2015

The National Police Checking Service (NPCS) contributes to improved community safety by enabling access to Police History Information (PHI), with the consent of the Applicant. The service is delivered to Australian police agencies and other organisations who are accredited with CrimTrac, to support their processes for assessing the suitability of people applying for employment, Australian citizenship or appointment to positions of trust.

The following organisations are known as 'brokers' and are accredited with CrimTrac to provide the NPCS directly to individuals. It is important to note that some brokers provide services to particular client bases and as such, CrimTrac recommends undertaking relevant research to determine if a broker can service your needs.

If you require the full list of Accredited Organisations (including those who do not service individuals directly), please refer to our [NPCS List of Accredited Organisations](#).
